

REMARKS

Restriction was required under 35 U.S.C. § 121 and 372. Applicants were required to elect a single invention from the following groups:

- I. Claims 1-7 and 11, drawn to a method for separation and purification of fibrinogen and at least one other protein and fibrinogen prepared by said process.
- II. Claims 13-14, drawn to a kit comprising fibrinogen and thrombin.
- III. Claims 16-23, drawn to a lyophilized fibrinogen formulation comprising fibrinogen, factor XIII, a carbohydrate, an amino acid, a salt, a buffer and a detergent, the formulation being capable of dissolution in water at ambient temperature in less than 15 minutes, to give a fibrinogen solution.

Response to Restriction Requirement

Applicants elect Group I, encompassing Claims 1-7, 11 drawn to a method for separation and purification of fibrinogen and at least one other protein and fibrinogen prepared by said process. In addition, New Claims 24-27 also belong to Group I since they depend from Claims 1, 3 or 7. Support for these new claims may be found in the Specification as filed, for example at page 9, lines 9-34.

Request for Rejoinder

Upon allowance of Group I claims, Applicants respectfully request rejoinder of withdrawn Claims 16-20, 22 and 23, which are ultimately dependent on the elected Group I claims and include all of the limitations of Claims 1, 3 or 7.
